The 12:05 Lunch Hour Group has experienced challenges over the years from its several meeting place moves to deciding what kind of coffee and snacks we all like to have, this group has a rich history of weathering these minor disturbances through pulling together as a grateful AA group in addition to the support from all AA members in district 48.

12:05 Lunch Hour Group has been in existence since 1985 making the group 35 years old. The group is known as the 12:05 however because of the colon the E.I.N number and meeting cards have the group down as the Lunch Hour Group. The current group meeting place has been St Joe's on Edwin St since 2004. In 2010, the group went from meeting Monday through Friday 5 days a week, to now include Saturday meeting 6 days. The format has undergone some changes and the current format is as follows (can you add the format).....

The group itself has seen the meeting fluctuate as far as attendance. Within the court system it was decided that the 12:05 would not count as a meeting for DUI court or Drug court (outside issue). Attendance from 2009 - 2013 was small but still had the same mix of newcomers and oldtimers. With accepting the 12:05 as a meeting with court papers attendance has grown, some days standing room only. A unique quality of the Lunch Hour Group is they have a drawer just to hold coloring books for kids.

When covid started the group decided if the church would let us still continue to meet in person we would do so. So covid shut down everything around us but the 12:05 was still able to carry the message in person. (can you add here how the attendance was, if mask were required, did you still make coffee)

This history is just an update from the 2012, may the 12:05 continue to carry the message for at least another 35 years!
